PROFESSIONAL SUMMARY

BCA (Data Science) student with hands-on experience in Python, SQL, Excel, and data analysis, along with internship experience developing AI-powered applications. Passionate about transforming data into actionable insights through analysis and visualization. Seeking opportunities in Data Analytics, Python Development, or in Data Field where I can apply analytical thinking and continuously expand my technical & professional skills.

EDUCATION

Bachelor's In Computer Application (Data Science Specialization) <i>Atmiya University</i> C.G.P.A: 9.64 , 4 th Sem	June 2024 – April 2027
Higher Secondary Certificate (12th), GSEB <i>Kotak School, Rajkot, Gujarat</i> Result: 84.71%	2023-2024
Secondary School Certificate (10th), GSEB <i>Kotak School, Rajkot, Gujarat</i> Result: 75.67%	2021-2022

EXPERIENCE

Medical Assistant Forrum Enterprise Rajkot - Operated Prompt pharmacy management software for billing and inventory management. - Verified incoming medicine stock by checking expiry dates, batch numbers, MRP, and quantities. - Maintained stock records and supported day-to-day pharmacy operations. - Performed field work, including medicine distribution, supplier coordination, and deliveries to medical stores.	[Dec-24] – [July-26]
Data Science Intern Imbuesoft LLP Rajkot - Learned Python, NumPy, Pandas, SQL, EDA, and basic Machine Learning concepts. - Developed VoxBill, an AI-powered voice-based restaurant billing system using AI-assisted development tools. - Integrated voice recognition with the billing workflow and tested the application. - Improved debugging, problem-solving, and project development skills through hands-on implementation.	[Jan-26] – [April-26]

PROJECTS

VoxBill — Voice-Controlled Restaurant Billing System Node.js, Express, MongoDB Atlas, Python/Flask - Developed a voice-controlled restaurant billing system to automate order taking and bill generation. - Implemented features like dynamic menu pricing and Rush Mode for faster billing. - Integrated voice recognition with the billing workflow and tested the application using AI-assisted development tools.
AI Healthcare Assistant Flask, MongoDB, Gemini/Ollama - Developed a multilingual AI healthcare assistant supporting English, Hindi, and Gujarati. - Implemented symptom-based disease prediction and doctor recommendation features. - Integrated AI models to generate responses and tested the application with different user inputs.
CrackAI — AI Mock Interview Platform (Under Development) Flask, MongoDB, Groq API (Llama 3) - Developing an AI-powered mock interview platform for technical and HR interview practice. - Integrated the Groq API (Llama 3) to generate interview questions and evaluate responses. - Built the backend using Flask and MongoDB while improving the application with AI-assisted development tools.

TECHNICAL SKILLS

Languages & Core: HTML, CSS, JavaScript, Python, SQL, C
Tools: Basics of Excel, Word & PowerPoint, Git, VS Code, Jupyter Notebook
Databases: MongoDB, MySQL, SQLite
